Our Lady of Mercy School Anaphylaxis Requirement

Dear Parents,

All members of the school community are required to read and adhere to the CISVA's Anaphylaxis Policy, in order to keep safe those children in our schools who are affected. You may find this policy on the CISVA website: www.cisva.bc.ca.

Through the use of the Student Emergency Response Plan, our school must be able to identify children at risk, keep records with information relating to each student with anaphylactic reaction.

At the time of registration (yearly), all parents are asked to identify whether or not their child has any anaphylactic allergies. Parents of children with anaphylactic allergies will be required to complete the Student Emergency Response Plan which requires the signature of the child's physician.

All parents must be aware that our entire school community is responsible for ensuring that we maintain an allergen-aware environment.

It is important to be aware of the common sources of anaphylaxis triggers in allergic children. These can include: Foods which are common sources of anaphylactic reaction, other possible sources in prepared foods, and non-food sources. While not all anaphylaxis triggers can be avoided at all times, at our school we strive to create an allergy-aware environment in light of the particular needs of our students with respect to these triggers.

All parents must advise the School Principal of any changes in their child's health that would impact any of the information provided in the Student Emergency Response Plan, and the Student Emergency Response Plan must then be updated to reflect that new information. It is the parents' responsibility to communicate this information to the School Principal in a timely manner.

My child, _____, going into Grade _____ has an allergy to_____.

I will provide an Epi-pen for my child _____.

We understand our role and responsibility to ensure that all children are safe while at school.

_____ Parent Name (print) _____ (signature)
